

# GEORGE NELSON SAUCER CRISSCROSS BUBBLE PENDANT

FOR HERMAN MILLER, AVAILABLE FROM HAY

Designed by pioneering American designer George Nelson in 1947, and first produced in 1952, the Bubble Lamp signaled a revolution in the Modernist lighting industry. Available in an assortment of organic sizes and shapes, these elegant orbs were inspired by a set of silk-covered Swedish pendant lamps Nelson wanted for his office, but found to be too expensive. Employing the resourcefulness that characterized his working process, he decided to use a self-webbing plastic spray developed by the U.S. military, and applied it over a lightweight, rounded-steel frame to produce these soft, glowing fixtures.

The Nelson Saucer Crisscross Bubble Pendant is part of the Nelson Bubble Lamp series. Inspired by a set of silk-covered Swedish hanging lamps, George Nelson designed the series in 1952. Beyond the soft light this lamp casts, it features a unique crisscross pattern that adds an interesting contour to the shade.
