

wästberg / w131 bell

#### Product Information

While Wästberg is a forward-thinking manufacturer of high-tech lighting, a pendant lamp is a very old concept. Therefore, developing a new pendant lamp that is relevant means bridging the past with the present. Firstly, w 131 bell is a surprisingly small lamp. However, it still lights up well and is extremely versatile when it comes to usage. Secondly, die casted aluminium is both beautiful and adds weight and a solid materiality to the shade, quite seldom found in small pendant lamps.

We see the w 131 bell as a great tool, as it works very well both at home and in public spaces. Both as a single pendant or in multiples, forming a cluster. In addition, it is available in 10 different standard colours.
