

wästberg / w132 nendo

Product Information

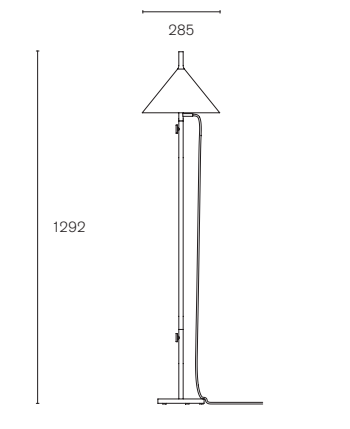

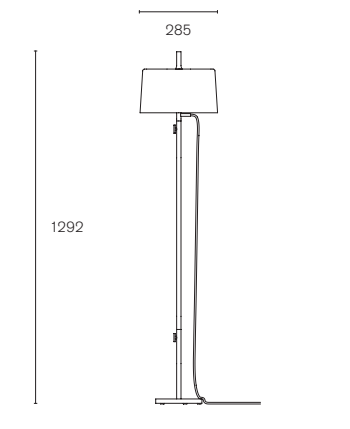

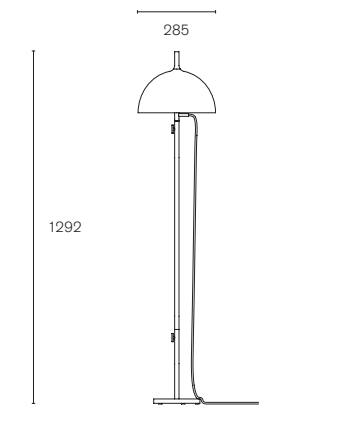

A light fixture made by a system of parts. The height of the light can be easily changed by adding and rearranging the components. By attaching the wire unit to the shade, it becomes a pendant lamp. Adding a longer post to the lamp makes it a floor lamp. The shade is available in three different shapes: a cone, a sphere and a cylinder.

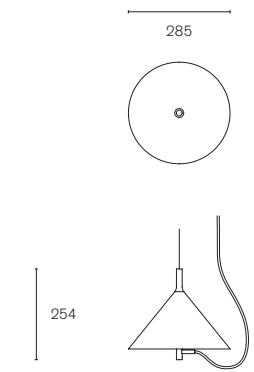

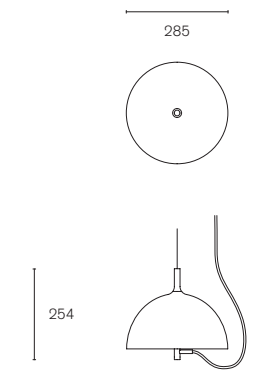

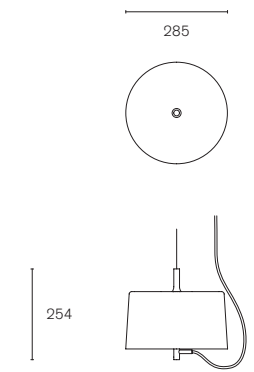

A selection of accessories – a table, a bowl and a bird-cage – made of the lamp's standard components, are also available.

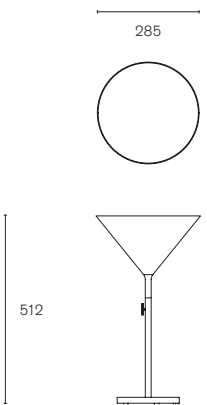

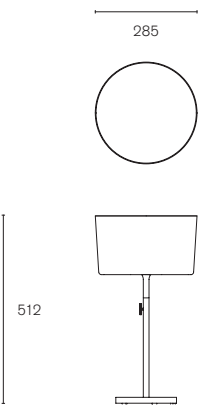

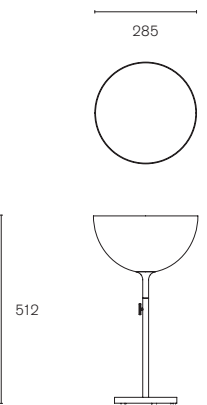

Design: Nendo

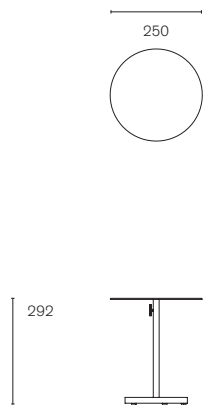

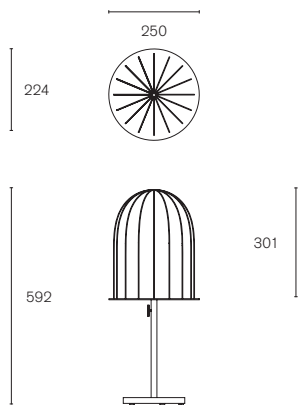

Material	w 132 nendo is made of steel.
System	The central part of the lamp system is the shade unit that has one upper connection point and one lower.
Upper connection point	On the pendant version, the wire is attached to the upper connection point with a choice of three types of shades: a cone, a cylinder and a sphere.
Lower connection point	The table stand is connected at the lower connection point, to become a table lamp, while adding an additional pole turns the lamp into a floor lamp.
Glare-protecting shade and diffuser	The glare-protecting shade and diffuser give the lamp a smooth and pleasant light.
Adjustable height	The easily managed screw gives the option of raising or lowering the table and floor lamp.

Wästberg is a Swedish lighting company aimed at bringing back light to human proximity, by restoring the private spheres man has been deprived of during decades of misguided pursuit of efficiency and standardisation. The universally acclaimed lamps are created in close collaboration with some of the world's most renowned architects, designers and lighting experts, and have earned prestigious awards for their combination of aesthetics, cutting-edge technology and resource conservation.
